## Portable Gas Leak Detector

### FEATURES:

- Unique, pocket-sized Ergonomic design
- Advanced microprocessor control
- Variable Tick Rate Audible Alert
- Dual LED visual alert
- Low battery indicator
- Automatic shut-off
- Molded grip
- Earphone jack
- Battery-powered (2 AAs)
- Comes as complete kit: Detector, soft pouch, batteries, earphones, hard case
- Up to 8 hours continuous use

The BOLO® portable gas leak detector is a battery-operated, solid-state, feature-rich professional instrument utilizing advanced microprocessor control, and is intended for use by professional technicians in applications requiring detection of combustible gas leaks. With its unique folding sensor wand and highly sensitive solid-state Figaro 2611 sensor, the BOLO® detects extremely small concentrations of natural gas, propane, hydrogen, butane and more. Locating leaks in pipes, valves, fittings and tanks.

## TEST EQUIPMENT *Pocket Air Check* Portable Gas Detector

*The Pocket Air Check is a portable, battery operated, solid-state instrument intended for use in applications requiring detection of combustible gas leaks. Handheld and highly sensitive, the Pocket Air Check makes finding gas leaks as easy as using a flashlight and at a fraction of what other portable detectors cost. The Pocket Air Check is a toolbox requirement for the HVAC technician, plumber, homeowner or anyone working with combustible gas installations, especially natural gas or propane.*

### **Features:**

- *Detects Natural Gas, Methane, Propane, Hydrogen and Butane*
- *Locates leaks in pipes, valves, fittings and tanks*
- *Operates up to 8 hours on 2 – AA alkaline batteries*
- *Highly sensitive solid state sensor*
- *Eye-catching emergency yellow housing*
- *Only 6" long, fits easily into pocket or tool-belt*
- *Has both audible and visual alarm indicators*
- *Sensitivity 5000 ppm methane 2000 ppm propane*
